

Orthodox Bishop from Antioch asserts that ‘the devil is coming from America’

Bishop Luke (Habib-Huri) and the Mufti Allaa Edin Zateri

As tensions mount in Syria and off the coast of Iran, representatives of different religions in Syria met in Moscow on 17 February, calling for peace, internal dialogue and denouncing any possible intervention from foreign powers. They called the protestors inside Syria ‘criminals’ and the Syrian Mufti stated that the USA wanted ‘to divide the Arab world and build a new Middle East where brothers will kill one another’.

Bishop Luke described the mystical reason for the Syrian crisis: ‘Evil is spreading around the world, the devil is already inside many people. The devil is moving from America to the Middle East. This is in the interests of Israel and Zionism..., they consider that Christ never was, they are all against Syria. I assure you!’

Bishop Luke added that: ‘Those who shout from the West that they want the overthrow of the government are not for the opposition, they are for the destruction of their country, they are encouraging violence’. All the representatives, Christian and Muslim, spoke of how they enjoy complete religious freedom in Syria and how they fear aggression from UN forces. They also mentioned that the Western media are distorting the situation in Syria and spreading lies.

From ourselves we can only add that the nuclear-armed Israeli State, which exists only because of US subsidies, is ever more taking on the appearance of a Middle Eastern Crusader State or Western colony, devoted to the eradication of bimillennial Orthodox Christianity in the Middle East.
